

## Climate Education Sub-Group Report Back

Carrie has had a lot of requests to present climate change education across the region. She's seen a lot of success with recycling but we need to get people to move beyond to bigger systemic change.

Can we create tools for action or roadshow on climate that can be rolled out across Parish Councils? Target all generations from youth to elderly, inspire with solutions and encourage empathy? Goal to inform, inspire, bring hope and guidance.

We have two stories/ two paths—which are we going to choose? Doom and Gloom or imagine a better more vibrant, sustainable future? Let us help others create a positive narrative and create solutions.

### BRAINSTORM

- Working on self knowledge
- Wisdom of youth, project-orientated learning
- Pull not push
- **Agile Learning** (tools, non- hierarchical), self- learning
- **Creativity**—use the Arts to create an emotional reaction. Also theatre, music, dance and creative writing to expand learning across cultural boundaries
- Brownies/ Beavers/Scouts/ D of E
- **Finish the Story**- publish climate story book without ending—get kids to finish the story. Class lessons, workshop, contest and awards for participants.
- **Climate Justice in Schools**—Connect to schools on frontline of Climate
- Kids presenting to Kids
- 10/12 point plan similar to AA
- Engaging teenagers through curriculum/camps
- **Mind the Gap**—gap year involvement for teens
- Intergenerational Work-talks together
- Daily/ Weekly Action Plan (action for Happiness)
- Schools to declare a Climate Emergency
- Simulation games (Donna Meadows)
- Regen Culture-library of skills, nappies, etc.
- 8 acts of resilience.
- What are the bigger things? What do they look like? What are you passionate about?
- Mapping exercise of other organisations in the area. Where can we link and refer.
