Common Reporting Framework

Sector	Sub-sector	Description of activity /facility	Total tCO2e or notation key	Total tCO2e or notation key	Total tCO2e or notation key	Total tCO2e or notation key
Instructions	The raw data points each need to be referenced		Scope 1/Emissions	Scope 2/Emissions	Scope 3/Emissions	Sum of scope 1-3
Stationary energy	Residential buildings	Domestic space heating and hot water	0.2	2	3	4
		Domestic lighting, appliances, and cooking	5	6	6	
	Commercial buildings & facilities	Commercial space, heating and hot water				
		Commercial lighting, heating and hot water				
	Industrial buildings & facilities	Industrial buildings & facilities				
	Agriculture	Agriculture				
Fugitive emissions	Fugitive emissions					

2

A range of visual, easy to understand emission scenarios up to 2050

These different scenarios are based on the adoption or application of a number of emission reducing inventories.
