Candidate's name:

**SOUTH EAST
CLIMATE
ALLIANCE**

About the ABCD pledge

- A ACCELERATE ACTION** to reflect the urgency of the crisis. Look at emissions targets for the **whole council area** not just the council itself. Ensure all council decisions take climate and nature implications fully into account.
- B BOOST PARTNERSHIPS FOR ACTION** – lead work with communities, voluntary groups, businesses & public sector partners to achieve joint area-wide targets.
- C COMMUNICATE ON CLIMATE ACTION** – publish action plans and emissions targets clearly and produce regular reports on progress for the public. Produce clear and engaging information so that residents can take action themselves.
- D DIVEST FROM FOSSIL FUELS** – pass a motion that calls on the trustees of your Local Authority Pension Fund to divest from fossil fuels, and move the funds to safer, more sustainable investments.
