About the ABCD pledge

If elected, I will press my Council to:

**SOUTH EAST
CLIMATE
ALLIANCE**

- A ACCELERATE ACTION** to reflect the urgency of the climate and biodiversity crisis. Set targets **for the whole council area** not just the council itself. Ensure all council decisions take climate and nature implications fully into account.
- B BOOST PARTNERSHIPS FOR ACTION** – reach out to communities, voluntary groups, businesses & public sector partners to achieve joint area-wide targets.
- C COMMUNICATE ON CLIMATE & NATURE** – publish clear climate and biodiversity strategies and action plans, followed up with annual progress reports. Put climate and nature on the council homepage. Produce clear, engaging information to help communities take action themselves.
- D DIVEST FROM FOSSIL FUELS** – follow other councils in the region and pass a motion calling on the trustees of your Local Authority Pension Fund to divest from fossil fuels.
